Welcome

Welcome to the Student Evaluation Case Competition Website. Started in 1996, this annual Canadian competition has established a reputation as a dynamic, hands-on opportunity for post-secondary students to learn about evaluation.

The Canadian Evaluation Society (CES) and the Canadian Evaluation Society Educational Fund (CESEF) co-sponsor the competition. On our website, students, professors and supporters of the competition will find the information needed to get involved.

Who also benefits

- **NGOs/public sector:** evaluation proposals for their projects and programs
- **Sponsors:** visibility, selection of future talents
- **Evaluation community:** occasion for cooperation - from the organizers to coaches, students (future evaluators), to judges and case providers.
- **Increasing the profile of evaluation:** there are student competitions of engineers, economists, … so why not evaluators?
