

The Czech
Evaluation Society
presents...

**Student competition in
evaluation**

Student competition in evaluation

Who will design the best evaluation approach?

- Student teams: 3-5 members
- Graduate-level students (sociology, public administration, management studies, pedagogy, social work, regional development, psychology, ...)
- Any field of study, which contains a methodology or a project management course

Students can:

- Apply theoretical knowledge
- Try mock evaluations
- Develop evaluation thinking
- Develop teamwork skills

=

Develop evaluation capacities

(and job prospects)

News 

Welcome

Welcome to the Student Evaluation Case Competition Website. Started in 1996, this annual Canadian competition has established a reputation as a dynamic, hands-on opportunity for post-secondary students to learn about evaluation.

The Canadian Evaluation Society (CES) and the Canadian Evaluation Society Educational Fund (CESEF) co-sponsor the competition. On our website, students, professors and supporters of the competition will find the information needed to get involved.

Who also benefits

- **NGOs/public sector:** evaluation proposals for their projects and programs
- **Sponsors:** visibility, selection of future talents
- **Cooperation of the evaluation community:** from the organizers to coaches, students (future evaluators), to judges and case providers.
- **Increasing the profile of evaluation:** there are student competitions of engineers, economists, ... so why not evaluators?

Timing

Round 0:

- Fall 2016

Regular competitions attached to the annual conference of the Czech evaluation society

- 2017 -

Roles in the competition:

Coaches

Who lead student teams

Students - competitors

Sponsors

Can't do without 😊

Judges

Who evaluate student proposals

Co-organizers

Who are involved in a number of interesting competition-related events

Judges of CES competition (2012)
